The girl with the hoe.

The city was lighted last night with the new arc lamps and everybody was pleased with the new order of things. Of course, you can hear divers opinions as to the strength of the light in comparison with the old lamps, but there is no doubt the city is better lighted than ever before the light being steady and strong. You will find very few dark corners the new system does not reach. The Citizens and Light Company can congratulate themselves on the success of the first light up by the new lamps.

As his train reached a trestle near Concord, just before daybreak, the engineer detected something wrong with a wheel and called to Haines to investigate as he stopped the train.

## \$100—Reward—\$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O., Sold by Druggists, 75c.
